Claims 1-9, 13, 39-41, 43-46, 49, 50, 53, 54, 60, 61, 72-75, 77, 81-85 are pending. The rejections set forth in the office action of 7/19/06 are hereby withdrawn in view of the arguments and amendments filed 11/13/06.

Information Disclosure Statement

The IDS's filed 11/13/06 and 12/12/06 have been considered in full.

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because it is unclear what the "legend numbers" indicate in Figure 5. The lines external to the figures which are shown on the page containing Figures 4 and 5 makes it difficult to discern the features of Figures 4 and 5. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: while the prior art teaches various devices comprising embossed microchannels (e.g. US 6,238,538 and US 6,240,790), the prior art does not teach or fairly suggest such microchannels configured to provide fluid flow from an acquisition zone to a detection zone by

spontaneous fluid transport. Applicant's arguments with regard to "uniform and regular" microchannels, filed 11/13/06, are persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 1-9, 13, 39-41, 43-46, 49, 50, 53, 54, 60, 61, 72-75, 77, and 81-85 are allowed.
